ASKING BETTER QUESTIONS OF AI WITH PRECISION Q+A

As AI systems become more capable and integrated into various aspects of work and life, one thing is clear – Precision Questioning is an essential skillset. With AI handling more routine tasks, human value increasingly lies in knowing what to ask AI and how to think on your feet, asking high-value follow-up questions that reliably enhance what AI produces.

There has never been a more urgent call to advance our questioning skills and Precision Questioning (aka, Precision Q+A) can put you on the cutting edge. Join us for this fast-paced, eye-opening learning program in which you'll learn to ask better questions real time as you interact with your preferred AI assistant (e.g., Claude, ChatGPT).

Learning Outcomes

By the end of this 2-hour learning experience, you will:

- Understand the 7 Categories of Questions and their respective purposes.
- Ask higher-value questions of your AI tool, enabling it to produce higher-quality output.
- See the precise questions you must ask to accelerate your learning with AI, make better decisions with A, and think more strategically with AI.
- Possess a game-plan for advancing your critical thinking skills daily, so you remain well positioned in the innovation economy.

Structured to provide immediate value, this event will be highly interactive. We believe that people learn best by doing, so there will be 10 minutes of practice for every 5 minutes of presentation.

Available Formats

Format	Details
Open Enrollment Workshop (Online)	For individual learners. You will join a public workshop on a pre-scheduled date and time that includes people from different companies.
Intact Team Workshop (Online)	For teams. You will join a private team workshop on the date of your choice. Workshop minimum is 3 participants; maximum is 15.
Intact Team Workshop (Onsite)	For teams. You will join a private team workshop on the date and at the location of your choice. Workshop minimum is 3 participants; maximum is 15.

	Our executive and senior executive coaches are among the very best questioners in the world and there are no limits to our questioning skills. We will support you to strengthen your questioning muscle week-over-week, advancing to absolutely any level of capability you seek to achieve.

ABOUT ENLIVENWORK

All of us can enrich our communication, questions, growth, and leadership in ways we may have never imagined, yet very few of us were ever taught how. EnlivenWork's mission is to unlock this powerful potential inside organizations globally. EnlivenWork is the developer of the world's most complete and practical framework for question-driven collaboration, emerging from 25 years of research in accelerated learning at Stanford University and positive organizational scholarship at the University of Michigan.

We've been in business for 20 years and do zero marketing – word of mouth recommendations from satisfied clients is our only advertising. 98% of people who take our workshop report they would recommend it to others. Our clients include Amazon, Audible, Microsoft, Salesforce, Google, Dell, HP, eBay, Applied Materials, Zalando, KLA, Citi, Visa, Starbucks, simplehuman, Genentech, TomTom, Klarna, ServiceNow, Autodesk, Omron, Maxeon, SunPower, LORD Corporation, Enovix, Sila Nanotechnologies, Lenovo, Capital Group, VIAVI, Dolby, Nordstrom, Roche, Veeva, BlueCross BlueShield, Biogen, Halliburton, United Airlines, Bank of America, Shell, Henry Ford Health System, M&T Bank, Chick-Fil-A, CB Richard Ellis, Vulcan, HopeLab, the US Department of Labor, US Dept of Health & Human Services, the Bill and Melinda Gates Foundation, Harvard Business School, London Business School, Cornell University, Carnegie Mellon University, University of Michigan, Johns Hopkins University, Amnesty International, and countless more.

OUR INSTRUCTORS

Clare Dolan is EnlivenWork's COO and a Silicon Valley executive with extensive global leadership experience. Prior to joining EnlivenWork, Clare held a variety of business development and operations roles at Oracle Corporation, where she reported directly to the company's president and CEO. She holds a B.A. from Stanford University, an M.A. from the University of San Francisco, and has developed learning and certification programs that have reached millions globally.

Monica Worline, PhD is EnlivenWork's co-founder and CEO, is an organizational psychologist who teaches business leaders how to tap into courageous thinking, curiosity, and compassion to bring their best work to life. Monica is the co-developer of Precision Q+A and the author of the award-winning book Awakening Compassion at Work. Monica holds a lectureship at the Ross School of Business at the University of Michigan and is the Faculty Director of the Center for Positive Organizations. She has a PhD from the University of Michigan and a B.A. from Stanford University.

Bob Stocking is EnlivenWork's Director of RBSE Services. He has two decades of experience as a coach and facilitator, including teaching Precision Q+A to tens of thousands of people in 27 countries, including every role from CEO to entry-level employee, engineer to salesperson, attorney to designer, and strategist to implementer. He has taught at leading companies in the high tech, ecommerce, healthcare, energy, finance, and retail industries; and at local, state, and federal government agencies. Bob earned his B.A. and M.A. at Stanford University.
